DR. JAY MARINO

Dr. J. Jay Marino is the Superintendent of schools in the Antioch Community Unit School District 34 near Chicago, IL. He received his Doctorate Degree from Western Illinois University. Jay serves as an international consultant assisting European school organizations in their continuous improvement efforts based on the LEAN/6 Sigma model. Dr. Marino's latest project is the "Jay Marino's Excellent Schools Project" launched in 2013 by the Dutch Center for Educational Leadership.

Jay has served as an author for American and European books including: Leading Continuous Improvement; Inspiring Quality Education Worldwide (Magistrum, 2011); and a book titled Quality across the curriculum; Integrating quality tools and PDSA with standards (The American Society for Quality, 2004).

Workshop

Continuous improvement isn't just for business, industry and health care, it is alive and well in education also! Innovative school systems and classrooms are using Lean processes and quality tools to improve student learning and achievement. Learn more about how educational organizations are aligning goals and metrics from the boardroom to the classroom to realize transformational results. When teachers are empowered and students are engaged in 21st century learning, the possibilities are endless. See how schools in America and Holland have embraced a continuous improvement approach through teamwork, collaboration, shared leadership, quality tools and processes that has resulted in high achievement and customer satisfaction!

Jay lives in Chicago, IL, USA and is married to his wife, Laura and has four children; Jessica, Joey, Matthew, and Grace.

Deze workshop is in het Engels.
